Status: Draft (v 0.1)

Publication Date: March 15, 2021

“Shared Definitions”. The Emerging Technology Association Shared Definitions (the **“Shared Definitions”**), available at <https://www.emergingte.ch/policies/> (or such other Internet URL as ETA may determine from time to time), are hereby incorporated herein by this reference and made a part hereof. Any capitalized terms not defined herein shall have the meanings set forth in the Shared Definitions.

As described in the Shared Definitions and elsewhere, ETA operates the Program, whereby it makes Grants to certain Program Associates (Grant Applicants) in support of its Mission.

“Program Terms”. This “Emerging Technology Association Grant Program Terms and Conditions” is the **“Program Terms”** as defined in the Shared Definitions. Note that the Shared Definitions designate the Program Terms as one of the **“Policies”**. As described in the Shared Definitions, the Program Terms provide for the governance, operations, and mechanics of the Program, including the Grant Application and Grant awarding processes.

NOTE – These Program Terms supplement, but do not replace, the other Policies and also supplement all agreements entered into by and between Program Associates and ETA, all of which are hereby incorporated herein by reference. Also, separate from the Program Terms, the other Policies, and such agreements, additional Program details, including Application Guidelines and FAQs relating to the Program, all as amended from time to time (collectively, the **“Program Materials”**) may be published on the Website. In the event of any inconsistencies between the Program Materials and these Program Terms, the provisions of the Program Terms shall control.

Introduction.

Reminder - please see the Shared Definitions for the meanings of certain commonly used defined terms.

ETA’s “Mission” is to support open source and transparent research and development of emerging technologies and frameworks for community building and governance by way of receiving donations/grants/contributions (“Contributions”) from unaffiliated entities (“Contributors”) and issuing Grants to a broad array of experts, developers, and scientists around the globe (“Grant Recipients”). See the definition of the “Program” for additional details.

ETA is subject to the governance and voting outcomes of certain DAOs which operate in connection with ETA. The “DevDAO” is one such DAO operating within ETA’s infrastructure. The DevDAO is internally governed in accordance with its software implementation of the “MVPR”.

ETA is pleased to launch, offer, and operate its Program in accordance with these Program Terms.

1. Grants.

- 1.1. Grant Types. The Program is based upon the Mission. As such, some Grants may be in response to Requests for Proposals published by ETA, and some Grants may be in response to Requests for Funding submitted by Grant Applicants.
- 1.2. Common Grant Requirements. All Grant Applications and actual Grants shall comply with the following provisions and requirements.
 - 1.2.1. Project Plans. All Grant Applications shall contain a proposed Project Plan which meets ETA’s requirements which include, without limitation, the proposed project description, proposed budget, use of funds, and project development milestones. Grant Applications are required to state how the application or project would benefit the DAO ecosystem as a whole and the Mission.
 - 1.2.2. Resulting IP and Publication. Any intellectual property or developments resulting from a Grant shall be published by the Grant Recipient under a publicly available open-source license selected by ETA and ETA shall also have the unlimited right to publicly publish the same as it determines in its sole discretion.
 - 1.2.3. Other Requirements. All Grants are subject to the completion of any prescribed deliverables, restrictions, and other conditions as indicated in the final endorsed “**Award Letter**” (or alternatively, an approved Project Plan) issued to each Grant Recipient and pursuant to each applicable Grant Agreement.
- 1.3. Grant Agreements. All Grants approved by ETA are subject to the completion of a “Grant Agreement” by and between the Program Associate and ETA. Program Associate shall use the Grant only for the specified purpose as detailed in the Program Plan attached to the relevant Grant Agreement, within the time-frame set out on such Program Plan. There shall be no variation with respect to the Program Plan without ETA’s prior written approval. ETA has no obligation to continue funding or provide further Grants or Grant payment(s) beyond what is set out in the relevant Grant Agreement. Program Associates must complete Project Plan milestones to ETA’s satisfaction. If a Program Associate fails to do so, ETA shall be entitled to withhold the disbursement of the Grant or Grant payment(s) (or any portions thereof). For the avoidance of doubt, ETA is not obliged to

provide any further Grant or Grant payment(s) in the event of any delay or failure relating to the relevant Project Plan.

2. Grant Eligibility.

Furthermore, Grant Applications will only be considered if they are congruent with the Mission.
- 2.2. Excluded Jurisdictions. Program Associates may not submit Grant Applications if they reside or are domiciled in an Excluded Jurisdiction, or if there are legal restrictions in their country of residence or domicile for entering into these Program Terms, a Grant Agreement, or receiving a Grant. It is solely the Program Associate's responsibility to ensure that participation in the Program is not prohibited by any applicable law, regulation, or rule in the Program Associate's country of residence or domicile.

Program Associates shall be responsible for bearing all costs, fees, and taxes in connection with the receipt of any Grant.
- 2.4. Additional Documents. ETA may require Program Associates to furnish such documents and personal information so as to prove applicants identity, status, and/or eligibility for the Program. ETA reserves the right to reject applications or eligibility for a Grant or Program Associate status if the Program Associate does not furnish such documents or information to ETA's satisfaction. Under all circumstances, there is neither a right to be accepted as a Grant Applicant or Program Associate, nor does any party have a right to claim either.
- 2.5. Right to Disqualify/Refund of Grant. ETA shall have the unfettered right to disqualify any Grant Application, change the nature of any Grant (including awarding cash instead of tokens or vice versa), and/or require the termination or refund of any Grant to ETA if a Program Associate does not comply with these Program Terms and/or the relevant Grant Agreement. The same applies in the event of any illegality, and/or if mandated by applicable law and the need to comply therewith.

Program Associates should work collaboratively with ETA and any applicable DAO to revise the Project Plan such that it addresses all concerns and may be considered for approval.
 - 3.5. Grant Application (Dis-)Approval. Subject to the relevant processes, Grant Applications may be conditionally approved, subject to ETA compliance review and ratification by any applicable DAO, and also subject to the parties entering into a binding Grant

Grant Recipients shall provide ETA with the capacity to examine and audit any source code relating to a Grant. This can be done by sharing a public repository or by submitting a request to ETA to have the source code examined in a private repository with full access given to ETA. All source code, documentation and work product, without limitation, shall be submitted in the English language (additional translated versions may also be submitted). In case Applicant is a legal entity, Grant Applicants are obliged to inform ETA at its own costs about the history of funding rounds which took place during the past two years. Grant Recipients might have further information obligation towards ETA as set forth in the Grant Agreement.
- 3.7. Digital Governance Requirement. If required by ETA in the Grant Agreement, any Grant Recipient must operate its governance with respect to the Grant using an ETA approved digital governance software implementation. ETA may impose repository guidelines to ensure accessibility of Projects to the community of developers and end-users, and to simplify the assessment of Project deliverables.
- 3.9. Substantiation of Grant Applications. ETA shall have the right to substantiate/audit/verify all Program Associate's details/information provided. ETA may require further documents or information. If such a request is made and the Grant Applicant either fails to or does not agree to provide the same, ETA may reject the Grant Application. If at any time any information provided by a Program Associate is found to be false or misleading in any manner, the Program Associate will be disqualified from the Program and may not receive and shall be liable, on written demand, to return any Grants awarded under the Program.
- 3.10. Response Time. Program Associates are required to respond to requests for information and inquiries within five (5) business days and not doing so may be deemed by ETA as the Grant Application having been withdrawn.

- 3.11. Decisions Final. All decisions made by ETA are final and any disputes will not be entertained. All decisions of ETA on all matters relating to the Program are final and binding on all Program Associates. In the event that any Program Associate should disagree with any of these Program Terms or any decision made by ETA, such Program Associate will have the right to withdraw the applicable Grant Application and return any Grant received.

- 4.1. Ongoing Communication.
